

Information for students

Mneumonics

Prepared by Dr Angela Wilson, Senior Research Fellow, CHERI

Mnemonics are memory training devices or ways of making associations to aid/assist in remembering. They can be very powerful, but do not spend too much time generating and learning mnemonics and too little time on really understanding the material.

Many students often use memory tricks and rules to help them remember difficult words.

Only "E's" are buried in the cEmEtEry.
